

Dear WLOTA hunter friends

We wish you a Happy New Year 2019. May this year allow you to contact many WLOTA references around the world.

The entire WLOTA list is open by continent and country on the web site. It's a job that started in June 2018 and has just ended. These are 3500 files that have been opened.

In the coming weeks, we will put in each lighthouses file the validation expedition as well as photos (qsqs, flagship and video)

You will discover each quarter the news about WLOTA and what has been achieved in the quarter.

See you later WLOTA friends
